CALL FOR PAPERS

ICICDC 2027 aims to bring together researchers, academics, engineers and industry professionals from around the world to exchange knowledge and present recent advances in Intelligent Computing and Digital Communications.

The conference provides a multidisciplinary international forum for high-quality original research, case studies and practical applications across computer science, information technology, electronics, telecommunications and intelligent systems.

ICICDC 2027 encourages collaboration between academia and industry while promoting scientific excellence and technological innovation. It represents a unique opportunity to:

Share cutting-edge
research results

Discuss challenges and
future trends in ICDC

Strengthen scientific
cooperation

Promote innovation
and technology transfer
