7th Maghrebian Drying Symposium

Specific Session: Local products and sustainable development

November, 14-16 2019
Marrakech (Morocco)

Objectives

The 7th Maghrebian Drying Symposium (SMSTS2019) will take in November 14th to 16th in Marrakesh (Morocco). This meeting aims to provide the most advanced and comprehensive global forum for disseminating new results and data in research, development and applications in drying/dewatering sciences and technologies. This symposium aims to bring together leading researchers and engineers from academia and from industry from all around the Maghreb. Also it comes to present a new opportunity to share and discuss the research and development results in this area.

The 7th edition of the SMSTS's aims to provide society needs in the fields of drying and drying technology. It promote cooperation between Maghreb scientific teams and give the opportunity to young Maghreb researchers to present their research works. Since its creation in Tozeur (Tunisia) in 2006, the SMSTS are organized periodically and alternatively in Algeria-2008, in Morocco-2010, in Tunisia-2013, in Algeria-2015 and in Tunisia-2018.

Axes

- ◆ Fundamental aspects, modeling and simulation of drying
- ◆ Drying and Application
- ◆ Technology and drying processes
- ◆ *Specific session* : Local products and sustainable development
